PROJECTS

Spotify Clone

Developed a Spotify clone using HTML, CSS, and JavaScript, implementing features such as user authentication, music streaming, playlist creation, and search functionality. Optimized front-end performance for a seamless user experience and integrated Spotify API for real-time music data. Designed a responsive UI ensuring compatibility across devices. Collaborated with a team using Agile methodologies to deliver the project within set deadlines.

To-Do Task

Developed a responsive To-Do Task Web using HTML, CSS and JavaScript, enabling users to efficiently manage and prioritize tasks. Implemented features such as task categorization, due date reminders, and progress tracking. Optimized performance to ensure a seamless user experience across devices. Integrated with a backend API for secure data storage and retrieval.
